Brantro · Syrol Technologies

Mobile Functional Test Report

Brantro Customer app and Brantro Business app (Android). Functional testing of guest browsing, role sign-up and the seller dashboard, with steps to reproduce and evidence for every finding.

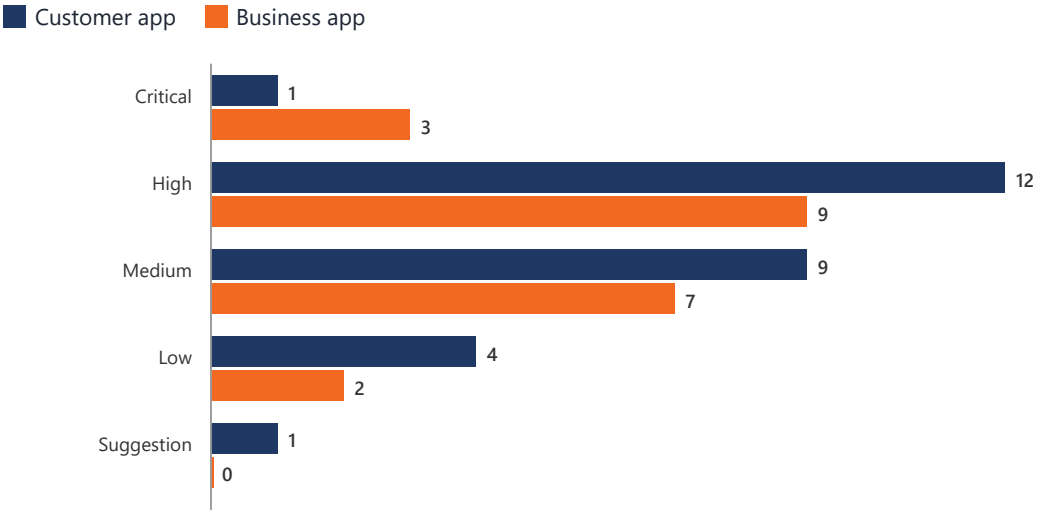

Test window	Builds	Findings	Report date
27 Sep – 7 Oct 2026	**Brantro_user.apk · Brantro_business.apk**	**47 bugs · 17 new**	**7 Oct 2026**

Executive summary

Advertiser sign-up cannot be completed in the Business app, and both apps crash to a grey screen on the State / LGA picker. 47 bugs are logged: 27 in the Customer app and 21 in the Business app (BRT-030 applies to both).

3	21	17	6 / 7
Critical	High	New this round	Retested bugs still open

Bugs by severity and app

Release blockers

ID	App	Issue	Why it blocks
BRT-031	Business	Advertiser sign-up rejected: backend role list has no ADVERTISER	No Advertiser account can be created
BRT-032	Backend	Sign-up error lists SUPER_ADMIN / ADMIN as accepted roles	Possible self-registration as admin; verify on dev now
BRT-033 / 045 / 046	Business (+ Customer BRT-042)	State / LGA picker crashes or silently picks the wrong LGA; FCT always crashes	Form data lost; Abuja users cannot sign up; wrong locations saved

Verification of reported issues

The four issues raised by the QA lead on 7 Oct were checked against the bug list. The State / LGA crash was also reproduced live on the Business app (Infinix X6887, 7 Oct, 17:12–17:18).

Reported issue	In our list	Verification result
Grey screen: City/LGA position not found in the new State's list	BRT-033, BRT-042, plus new BRT-045, BRT-046	**Confirmed.** City is stored as a list position. Benue › Vandeikya (#23 of 23) → Borno silently selected **Marte**, which is #23 in Borno (BRT-046). Borno › Jere (#13) → Bayelsa (8 LGAs) gave the grey screen in the recording (BRT-033). Back returns to the role picker with all data lost. **FCT crashes even on a fresh form**, so it also has a separate data problem (BRT-045).
Password strength not enforced	BRT-005 (Customer), new BRT-047 (Business)	**Confirmed in Customer app.** A 1-character password "." got no client error, and the backend error listed only the email problem. Business app shows no password rules; a weak-value check there is blocked by BRT-031.
URLs are not verified	BRT-036 (Business), BRT-044 (Customer), related BRT-020	**Confirmed.** Website accepted "hjx" and "8"; Portfolio accepted "u" and "la".
Fields marked "(Optional)" are required	BRT-009 (Customer)	**Confirmed, still open on 7 Oct.** Portfolio Link (Optional)* and Website (Optional)* show "This field is required". In the Business app the Optional fields seen had no asterisk; not tested empty.

Root causes

Root cause	Bugs	Fix
City/LGA stored as a list position	BRT-033, 037, 042, 045, 046	Store the LGA name/id; clear City when State changes; key the dropdown by State; add FCT area councils
No shared role list	BRT-031, 032, 034, 035	One role list for both apps and the API; allow only self-registrable roles at sign-up
No client-side validation	BRT-004, 005, 036, 038, 041, 043, 044, 047	One validator set (name, phone, email, URL, TIN, password) across all forms
Raw backend errors	BRT-003, 006, 031	Map validation errors to readable messages next to the field
"(Optional)" label and required flag set separately	BRT-009	Drive label and asterisk from one required setting

How to read the bug cards

Each card gives severity, priority, area, role, preconditions, numbered steps to reproduce, expected versus actual result, root-cause notes, the 7 Oct retest result and screenshots. "Recording" screenshots come from the 7 Oct Business app screen recording; "Device test" screenshots come from the live test; the rest were sent by the tester. The full tracker is **Brantro_QA_Bug_Report_v2.xlsx**.

SECTION

Brantro Business app

Seller / advertiser onboarding and the signed-in seller dashboard (Brantro_business.apk). New findings come from the 7 Oct screen recording and a live device test on 7 Oct (Infinix X6887).

BRT-030

No SSL certificate pinning

Critical P0 Not retested

Area	Security	Role	All
Reported	2026-09-29	Status	Open
Preconditions	Rooted device or proxy setup (reFlutter + Burp Suite).		

STEPS TO REPRODUCE

1. Patch the APK with reFlutter.
2. Route device traffic through Burp Suite.
3. Log in and make a payment.

EXPECTED

Connections to api.syroltech.com and api.paystack.co fail unless the pinned certificate/public key matches.

ACTUAL

Traffic, including auth tokens and payment data, can be intercepted and read in plain text.

Notes / root cause: Search the Flutter code for HttpClient(, Dio(, http.Client(), SecurityContext. Remove any badCertificateCallback that returns true. Applies to both APKs (Brantro_user.apk and Brantro_business.apk); listed on both sheets.

BRT-031

Advertiser signup rejected: backend has no ADVERTISER role

Critical | P0 | New this round

Area	Signup	Role	Advertiser - Individual; Advertiser - Company
Reported	2026-10-07	Status	Open
Preconditions	Brantro Business app; on Create account.		

STEPS TO REPRODUCE

1. Open Account > Advertiser.
2. Company: fill Advertiser Details > Complete Registration > Account Details Step 1 and 2 > Create Account.
3. Individual: fill Advertiser Details > Complete Registration.

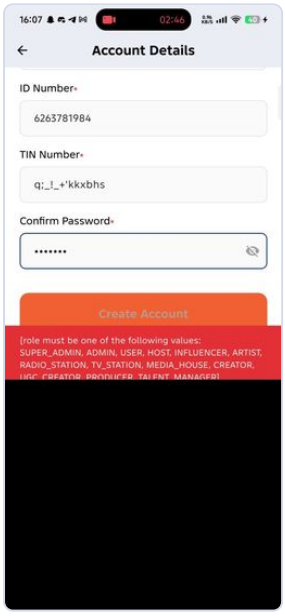

EXPECTED

Advertiser account is created.

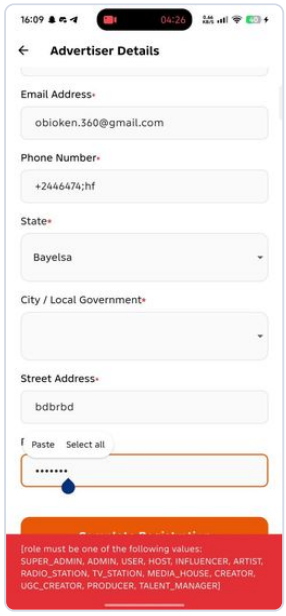

ACTUAL

Red banner: "[role must be one of the following values: SUPER_ADMIN, ADMIN, USER, HOST, INFLUENCER, ARTIST, RADIO_STATION, TV_STATION, MEDIA_HOUSE, CREATOR, UGC_CREATOR, PRODUCER, TALENT_MANAGER]". Failed 4 times (Company and Individual). No Advertiser account can be created.

Notes / root cause: Blocker. ADVERTISER (and DESIGNER) are missing from the backend role enum. Align the role values the app sends with the backend enum, and show a readable error. Screen recording 2:47-4:28.

Recording V07: role enum error company 165s

Recording V15: role enum error individual 264s

BRT-032

Signup error lists SUPER_ADMIN / ADMIN as accepted roles (possible privilege escalation)

Critical P0 New this round

Area	Security	Role	All
Reported	2026-10-07	Status	Open
Preconditions	Dev API; signup request captured in a proxy (e.g. Burp).		

STEPS TO REPRODUCE

1. Capture the signup request.
2. Change role to "SUPER_ADMIN", then "ADMIN", and resend.
3. Log in with the new account and call an admin endpoint.

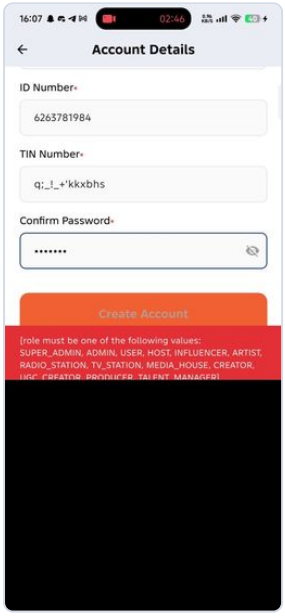

EXPECTED

Server ignores a client-sent role, or accepts only self-registrable roles. Admin roles can only be granted from the admin panel.

ACTUAL

Not yet verified. The public signup error lists SUPER_ADMIN and ADMIN as valid values for the role field.

Notes / root cause: Needs verification on dev. The backend is shared, so this affects both apps. Error messages should not list internal roles.

Recording V07: role enum error company 165s

BRT-025

Template Category dropdown has no options

High | P1 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Signed in; on Upload Templates.		

STEPS TO REPRODUCE

1. Open Upload Templates.
2. Tap Template Category.

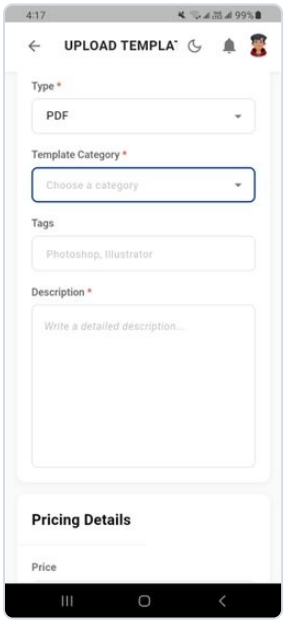

EXPECTED

A list of categories appears.

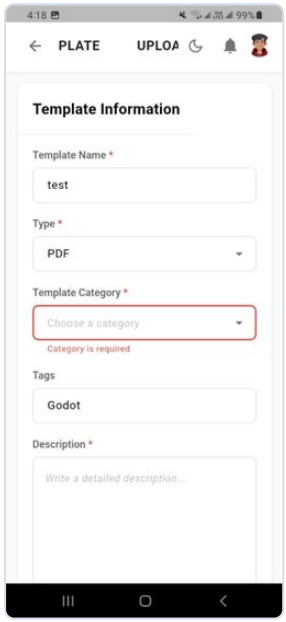

ACTUAL

Dropdown is empty, so the template can't be uploaded.

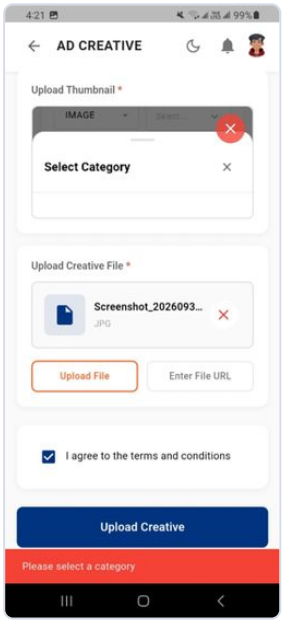

Notes / root cause: Dev: categories must be added from admin. Suggest seeding defaults or showing a message when none exist.

Tester screenshot

Tester screenshot

Tester screenshot

BRT-026

Create announcement does not create anything

High | P1 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Signed in.		

STEPS TO REPRODUCE

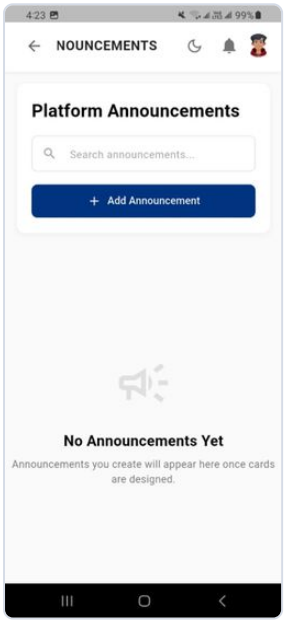

1. Dashboard > Announcements.
2. Tap Add Announcement.
3. Fill in the form and tap Create.

EXPECTED

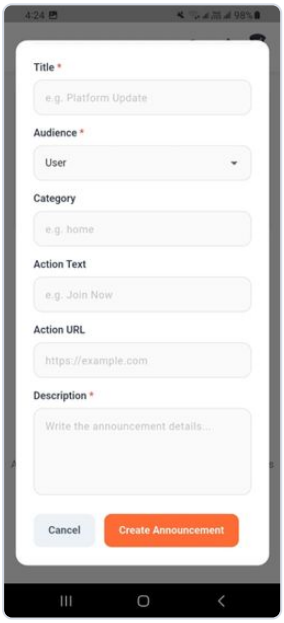

New announcement appears in the list.

ACTUAL

Nothing is created; list still shows "No Announcements Yet".

Tester screenshot

Tester screenshot

BRT-028

NIN verification blocks progress

High | P1 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Signed in; going through account verification.		

STEPS TO REPRODUCE

1. Start account verification.
2. Observe the required documents.

EXPECTED

No NIN/BVN required (as previously agreed), or an alternative verification option.

ACTUAL

NIN is required and the user cannot continue.

BRT-029

Deleted bank account still appears on Withdraw Funds

High | P1 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Signed in with one withdrawal account added.		

STEPS TO REPRODUCE

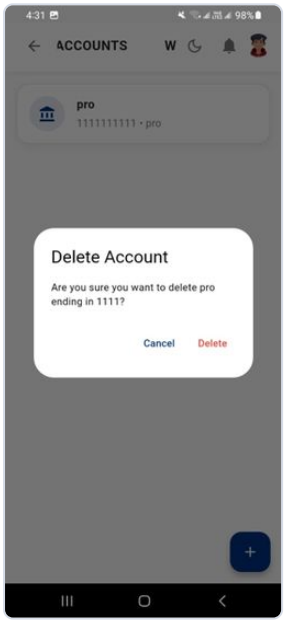

1. Wallet > Withdrawal Accounts.
2. Delete the account (e.g. "pro" ending 1111) and confirm.
3. Open Withdraw Funds.

EXPECTED

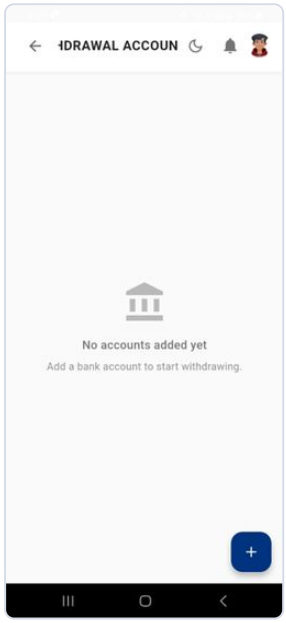

Deleted account is removed everywhere.

ACTUAL

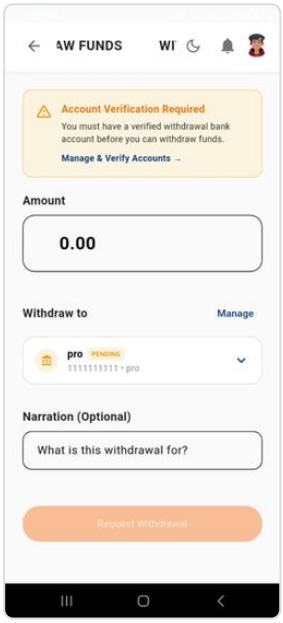

Withdrawal Accounts shows "No accounts added yet", but Withdraw Funds still lists "pro - 1111111111 (Pending)".

BRT-033

Grey screen when the new State has fewer LGAs than the selected City's list position

High P1 New this round

Area	Signup	Role	Advertiser - Individual
Reported	2026-10-07	Status	Open
Preconditions	On Advertiser Details.		

STEPS TO REPRODUCE

1. State = Borno; City = Jere (position 13 of 27).
2. Change State to Bayelsa (only 8 LGAs).
3. Observe the screen; then press Back.

EXPECTED

City resets to empty and Bayelsa's LGAs are listed.

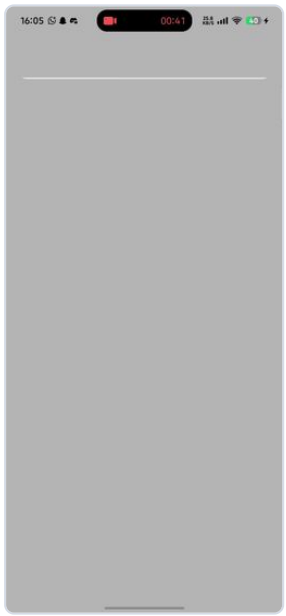

ACTUAL

The whole screen turns grey (app crash, empty widget tree). Back returns to the role picker and every entered field is lost.

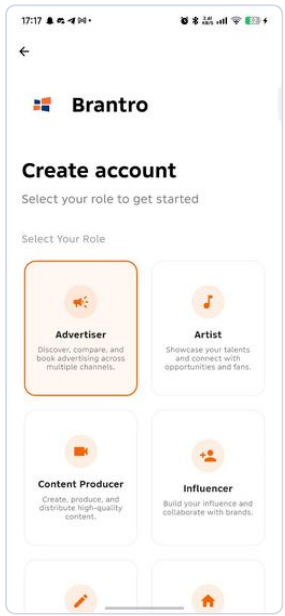

Notes / root cause: Root cause (confirmed on device 7 Oct, Infinix X6887): City is stored as a list POSITION, not a value. On State change the old position is looked up in the new state's list; when the new list is shorter the lookup fails (index out of range) and Flutter shows its grey error screen. When the new list is longer, a wrong LGA is silently selected instead (BRT-046). Fix: store the LGA name/id, clear City on State change, key the dropdown by State. Customer app: BRT-042.

Recording V13: grey after state change 241s

Recording V01b: grey screen after state 40s

Device test D5: back to roles data lost

BRT-036

Advertiser Details has no client-side validation (phone, website URL, empty City)

High | P1 | New this round

Area	Signup	Role	Advertiser - Individual; Advertiser - Company
Reported	2026-10-07	Status	Open
Preconditions	On Advertiser Details.		

STEPS TO REPRODUCE

1. Enter Phone "+2446474;hf", Business Telephone "bkjdbf", Website "hjx".
2. Leave City / Local Government empty.
3. Tap Complete Registration.

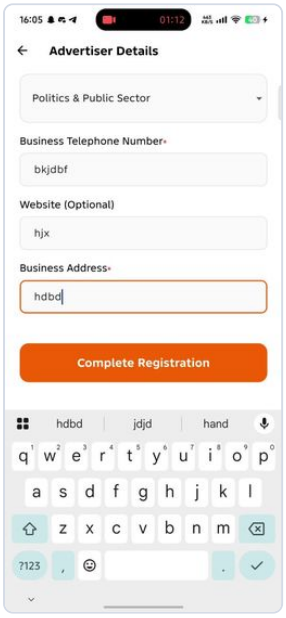

EXPECTED

Each invalid or empty required field is highlighted and submission is blocked.

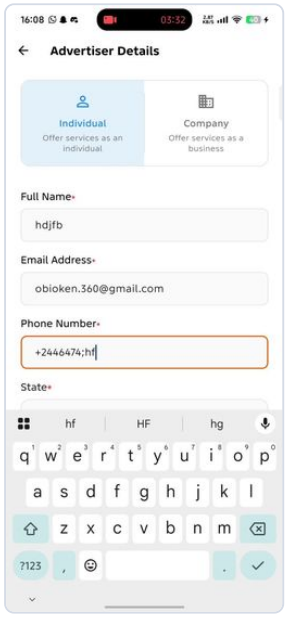

ACTUAL

The form submits to the backend with letters in the phone number and an empty City. Only backend errors appear.

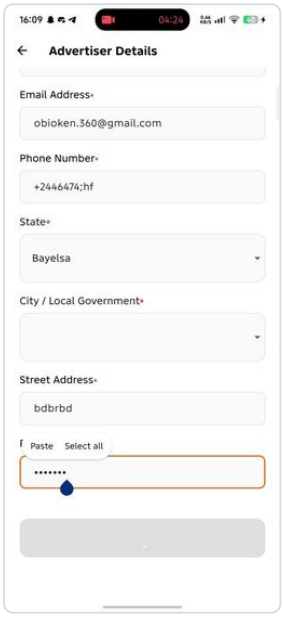

Notes / root cause: Account Details Step 1 already uses a fixed +234 phone field; reuse it here. Same bug in the Customer app: BRT-043.

Recording V03: company fields no validation 70s

Recording V09: phone accepts letters 210s

Recording V14: submits with empty city 262s

BRT-045

Selecting FCT as State always crashes to a grey screen

High | P1 | New this round

Area	Signup	Role	Advertiser - Individual
Reported	2026-10-07	Status	Open
Preconditions	Fresh Advertiser Details form, no City selected.		

STEPS TO REPRODUCE

1. Create account > Advertiser.
2. Tap State and select FCT.

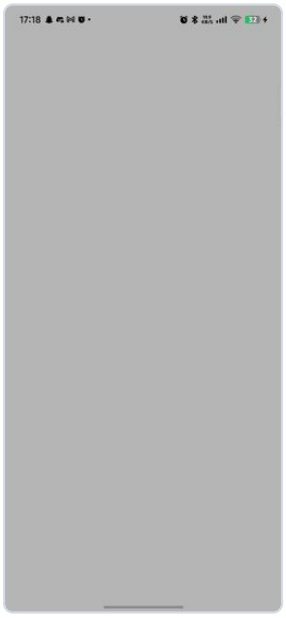

EXPECTED

FCT's area councils (Abaji, Bwari, Gwagwalada, Kuje, Kwali, AMAC) load in City / Local Government.

ACTUAL

The screen turns grey immediately, even with no City selected. Back returns to the role picker. Reproduced on device 3 times (fresh form, and after Borno > Shani).

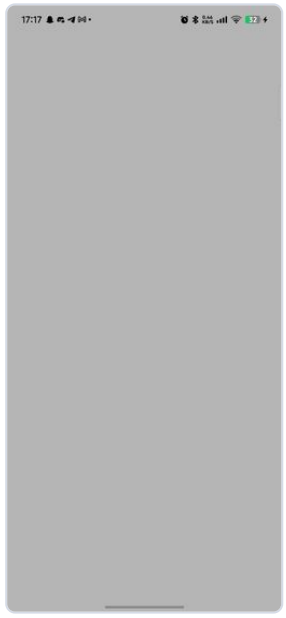

Notes / root cause: Separate from BRT-033: FCT fails on its own, so its LGA data is most likely missing or keyed differently (e.g. 'FCT' vs 'Federal Capital Territory'). Users in Abuja cannot sign up. Customer app shows the same (BRT-042).

Device test D6: fct fresh form grey

Device test D3: borno shani pos27

Device test D4: grey after fct

BRT-046

Changing State silently selects a different LGA at the same list position

High | P1 | New this round

Area	Signup	Role	Advertiser - Individual
Reported	2026-10-07	Status	Open
Preconditions	On Advertiser Details.		

STEPS TO REPRODUCE

1. State = Benue; City = Vandeikya (position 23 of 23).
2. Change State to Borno (27 LGAs).
3. Read the City field.

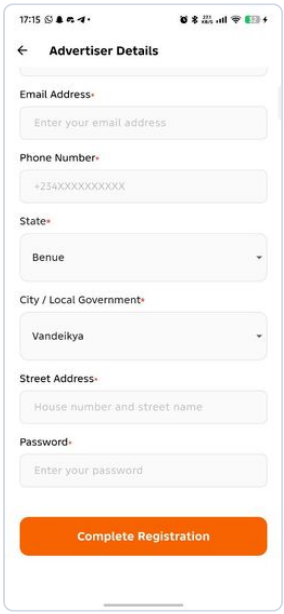

EXPECTED

City is cleared and the user must pick a Borno LGA.

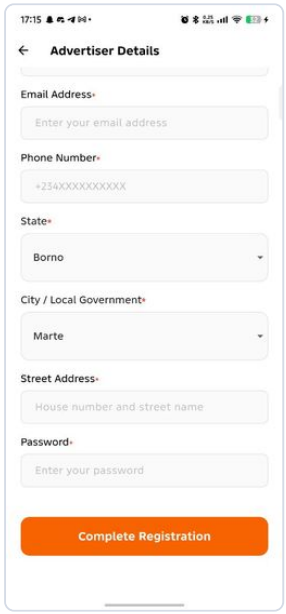

ACTUAL

City now shows 'Marte', which the user never chose. Marte is position 23 in Borno's list. The wrong LGA would be saved to the profile without the user noticing.

Notes / root cause: Verified on device 7 Oct. Same root cause as BRT-033 (City stored as a position). Data-integrity risk: wrong location on advertiser profiles.

Device test D1: benue vandeikya pos23

Device test D2: borno auto marte pos23

BRT-047

Password strength is not enforced

High | P1 | New this round

Area	Signup	Role	Advertiser - Individual; Advertiser - Company
Reported	2026-10-07	Status	Open
Preconditions	On Advertiser Details / Account Details Step 2.		

STEPS TO REPRODUCE

1. Fill the form.
2. Enter a weak password such as "aaaaaa" or ".".
3. Submit.

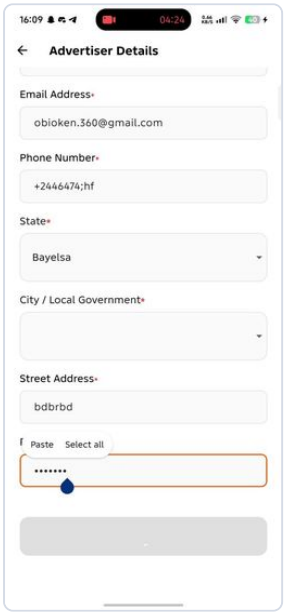

EXPECTED

Minimum length plus letters, numbers and a special character, with the rules shown under the field.

ACTUAL

No password rules are shown and no strength check runs on the form. In the Customer app a 1-character password (".") produced only an email error from the backend, so the backend has no password rule either.

Notes / root cause: Reported by QA lead (Business app). Same defect in the Customer app: BRT-005. Not re-checked on the device with a weak value because sign-up is blocked by BRT-031.

Recording V14: submits with empty city 262s

BRT-021

Messages show conversations on an account that never chatted

Medium | P2 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Newly created account with no chats.		

STEPS TO REPRODUCE

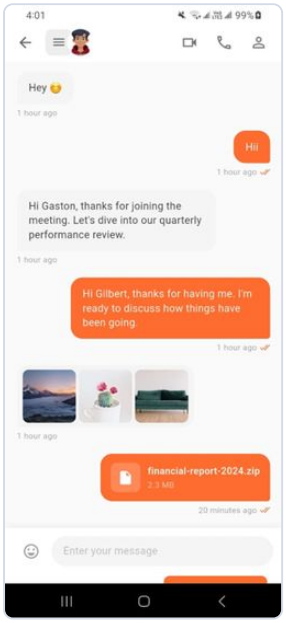

1. Log in with a new account.
2. Open profile menu > Messages.

EXPECTED

Empty state until a real conversation exists.

ACTUAL

Messages are listed even though the user never chatted.

Tester screenshot

BRT-022

Bank name is a free-text field

Medium | P2 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Signed in; adding a withdrawal account.		

STEPS TO REPRODUCE

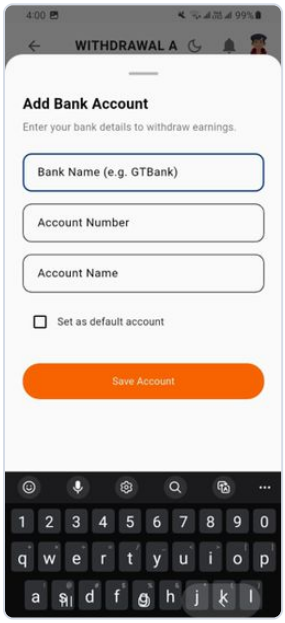

1. Go to Wallet > Withdrawal Accounts > +.
2. Look at the Bank Name field.

EXPECTED

Dropdown of banks; ideally the account name resolves from bank + account number.

ACTUAL

Bank name must be typed by hand, so typos are likely.

Tester screenshot

BRT-023

Help does not work

Medium | P2 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Signed in.		

STEPS TO REPRODUCE

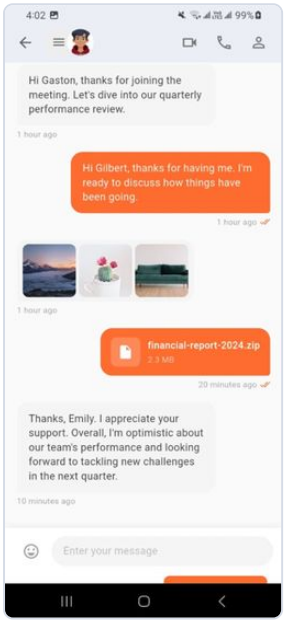

1. Open Dashboard.
2. Tap profile avatar > Help.

EXPECTED

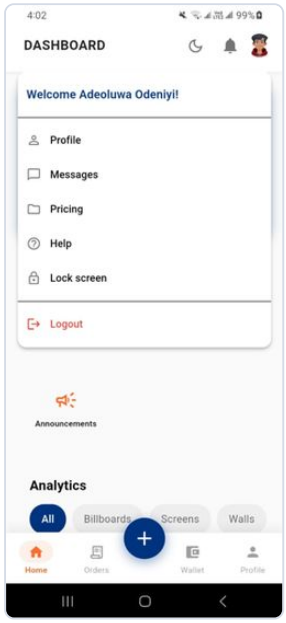

Opens a help/FAQ page or support contact.

ACTUAL

Help does not work.

Tester screenshot

Tester screenshot

BRT-027

Dashboard analytics show incorrect figures

Medium | P2 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Signed in with a new account.		

STEPS TO REPRODUCE

1. Open Dashboard.
2. Scroll to Analytics.

EXPECTED

Figures match real activity (zero for a new account).

ACTUAL

Analytics figures are incorrect.

Tester screenshot

BRT-037

City/LGA dropdown out of sync: blank menu, overlapping text

Medium | P2 | New this round

Area	Signup	Role	Advertiser - Individual
Reported	2026-10-07	Status	Open
Preconditions	On Advertiser Details.		

STEPS TO REPRODUCE

1. Change State several times.
2. Open City / Local Government.

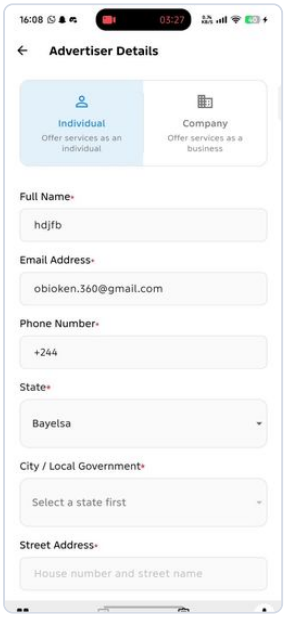

EXPECTED

City list matches the selected state and renders normally.

ACTUAL

City shows "Select a state first" while Bayelsa is selected. The dropdown opens as a blank white sheet with one item. The City field shows "Ondo" and "Idanre" on top of each other.

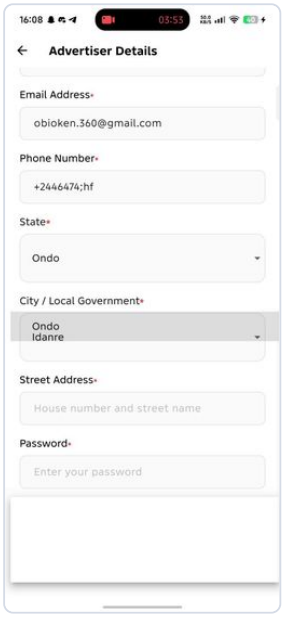

Notes / root cause: Same root cause as BRT-033; fix together.

Recording V08: city says select state first 206s

Recording V11: blank dropdown menu 228s

Recording V12: overlapping city text 232s

BRT-038

ID Type, ID Number and TIN accept any text

Medium | P2 | New this round

Area	Signup	Role	Advertiser - Company
Reported	2026-10-07	Status	Open
Preconditions	On Account Details - Step 2 of 2.		

STEPS TO REPRODUCE

1. ID Type (Optional): "134527462fgh".
2. TIN Number: "q;_!_+'kkxbhs".
3. Tap Create Account.

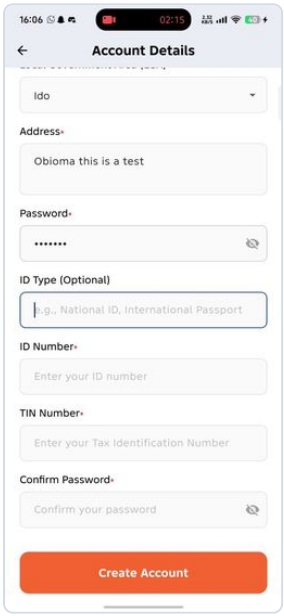

EXPECTED

ID Type is a dropdown. ID Number is required only when an ID Type is chosen, and is validated for that type. TIN is digits only.

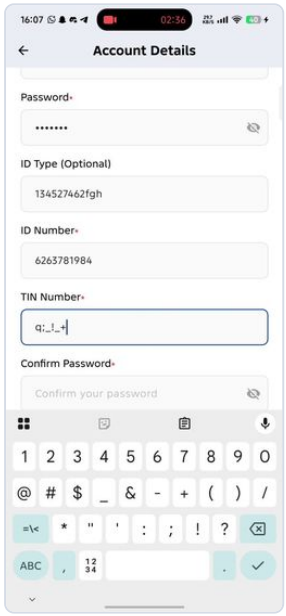

ACTUAL

All values are accepted. ID Number is required even though ID Type is optional.

Notes / root cause: Same issue in the Customer app (Content Producer - Business): BRT-044.

Recording V05: step2 asks ID and TIN again 133s

Recording V06: TIN accepts symbols 155s

BRT-039

Company Advertiser has to enter the same details twice

Medium | P2 | New this round

Area	Signup	Role	Advertiser - Company
Reported	2026-10-07	Status	Open
Preconditions	On Advertiser Details (Company).		

STEPS TO REPRODUCE

1. Fill Advertiser Details including TIN, Business Telephone and Business Address.
2. Tap Complete Registration.

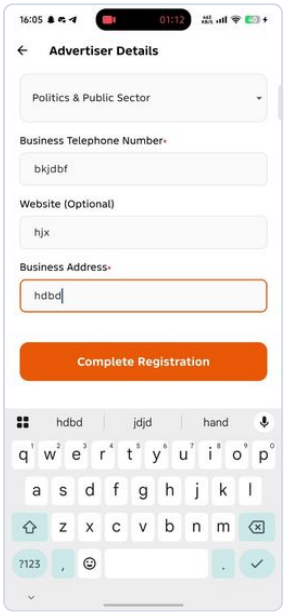

EXPECTED

Entered data carries over; one continuous flow with one step counter.

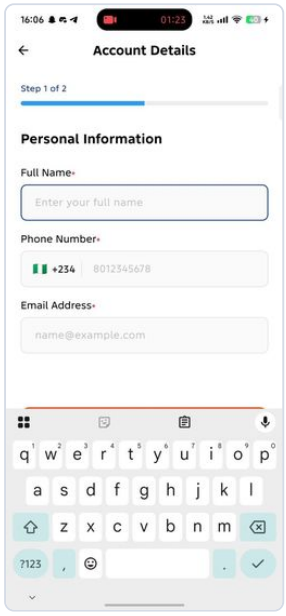

ACTUAL

Opens Account Details "Step 1 of 2", which asks for Full Name, Phone and Email, then Country/State/LGA/Address, ID and TIN again.

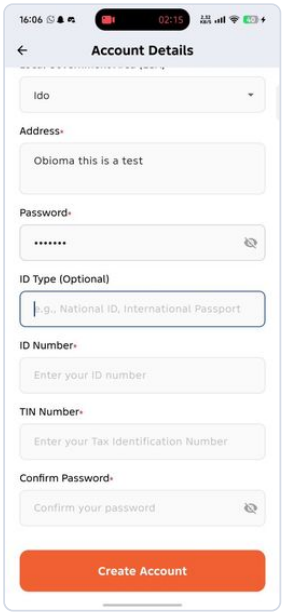

Notes / root cause: UX: drop the repeated TIN and address fields.

Recording V03: company fields no validation 70s

Recording V04: company then account details step1 81s

Recording V05: step2 asks ID and TIN again 133s

BRT-013

"Request successful" toast appears late, on the login screen

Low | P3 | Not retested

Area	Registration	Role	Content Producer - Business
Reported	2026-10-01	Status	Open
Preconditions	Completed signup.		

STEPS TO REPRODUCE

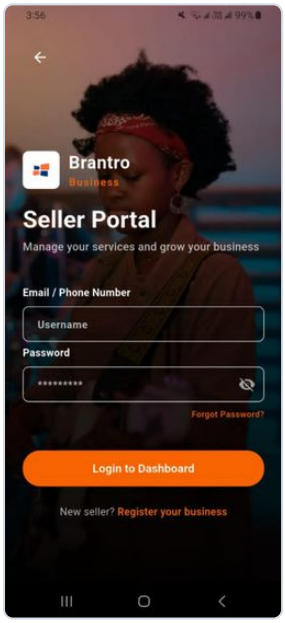

1. Complete registration.
2. Watch the screen after tapping Create Account.

EXPECTED

Confirmation is shown on the signup screen, then the user is taken to login.

ACTUAL

"Request successful" appears at the bottom of the Seller Portal login screen after signup has already finished.

Tester screenshot

BRT-024

Session persists after the app is swiped away

Low | P3 | Not retested

Area	Dashboard	Role	Signed-in user
Reported	2026-10-01	Status	Open
Preconditions	Signed in.		

STEPS TO REPRODUCE

1. Log in.
2. Swipe the app away from recent apps.
3. Reopen the app.

EXPECTED

Confirm intended behaviour. If sessions persist, require the lock screen/PIN on reopen.

ACTUAL

User is still logged in with no prompt.

Notes / root cause: May be by design; needs product decision.

SECTION

Brantro Customer app

Guest browsing, Explore, and sign-up for Advertiser, Content Producer, Artist and Designer roles (Brantro_user.apk). Findings come from tester screenshots, 27 Sep to 7 Oct.

27 bugs | **13** Critical + High | **7** new this round

BRT-030

No SSL certificate pinning

Critical P0 Not retested

Area	Security	Role	All
Reported	2026-09-29	Status	Open
Preconditions	Rooted device or proxy setup (reFlutter + Burp Suite).		

STEPS TO REPRODUCE

1. Patch the APK with reFlutter.
2. Route device traffic through Burp Suite.
3. Log in and make a payment.

EXPECTED

Connections to api.syroltech.com and api.paystack.co fail unless the pinned certificate/public key matches.

ACTUAL

Traffic, including auth tokens and payment data, can be intercepted and read in plain text.

Notes / root cause: Search the Flutter code for HttpClient(, Dio(, http.Client(), SecurityContext. Remove any badCertificateCallback that returns true. Applies to both APKs (Brantro_user.apk and Brantro_business.apk); listed on both sheets.

BRT-001

Signup fails when phone number is entered with +234

High | P1 | Retest: still open

Area	Signup	Role	Advertiser
Reported	2026-09-27	Status	Open
Preconditions	App installed; on Advertiser Details signup screen.		

STEPS TO REPRODUCE

1. Open the app and start signup as Advertiser.
2. Fill in Email, State, City/LGA, Street Address and Password.
3. Enter Phone Number in international format, e.g. +2348162860397.
4. Tap Complete Registration.

EXPECTED

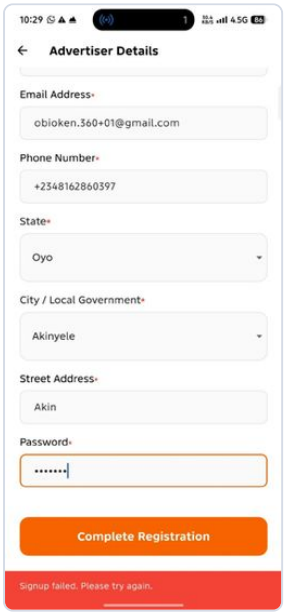

Account is created. The +234 prefix is accepted (agreed fix: show +234 as a fixed prefix and send the number to the backend in 0 format).

ACTUAL

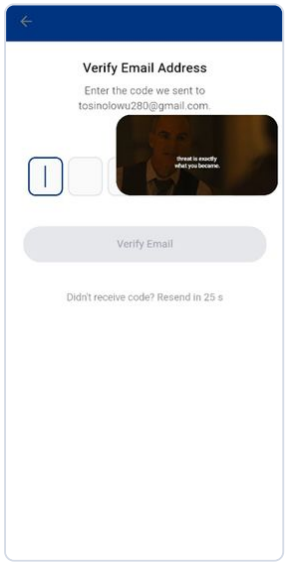

Red banner: "Signup failed. Please try again." No reason is given and the account is not created.

Notes / root cause: Dev confirmed it works with 0-format numbers. 2nd screenshot is the developer's working attempt.

Retest 7 Oct: Still open (7 Oct): Advertiser Details still accepts "+22222" with no fixed +234 prefix. The Business app's Account Details screen now has a fixed +234 field that could be reused.

Tester screenshot

Tester screenshot

BRT-002

Complete Registration button stuck on loading

High P1 Not retested

Area	Signup	Role	Advertiser
Reported	2026-09-27	Status	Open
Preconditions	On Advertiser Details signup screen.		

STEPS TO REPRODUCE

1. Start signup as Advertiser.
2. Fill all fields, entering the phone in local format (08162860397).
3. Tap Complete Registration.

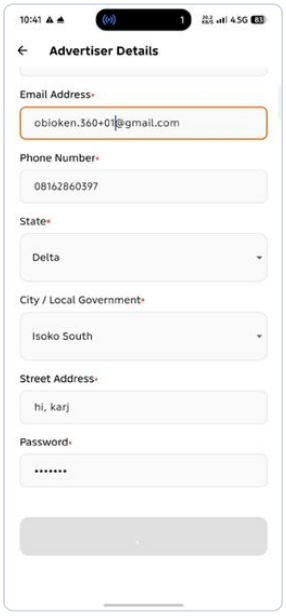

EXPECTED

Account is created, or a clear error is shown.

ACTUAL

Button greys out and shows a spinner indefinitely. No account is created and no error appears.

Notes / root cause: Developer noted this was not the business interface; followed up on a Google Meet call.

Tester screenshot

BRT-004

Step 1 accepts invalid Full Name and Phone Number

High P1 Retest: still open

Area	Registration	Role	Content Producer - Individual; Content Producer - Business
Reported	2026-10-01	Status	Open
Preconditions	On Account Details - Step 1 of 2 (Personal Information).		

STEPS TO REPRODUCE

1. Start registration as Content Producer.
2. Enter Full Name: 9
3. Enter Phone Number: a
4. Enter Email: ab, then tap Next.
5. Change Email to a@ and tap Next.

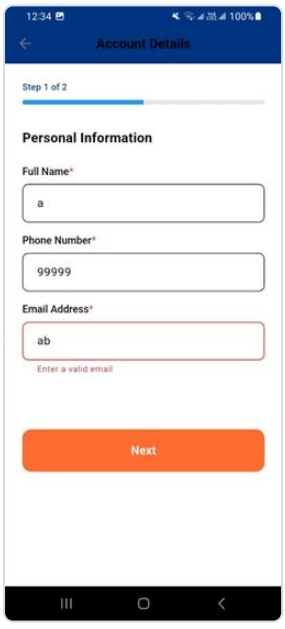

EXPECTED

Full Name rejects digits-only input, Phone accepts digits only, Email requires a complete address. Each invalid field is highlighted.

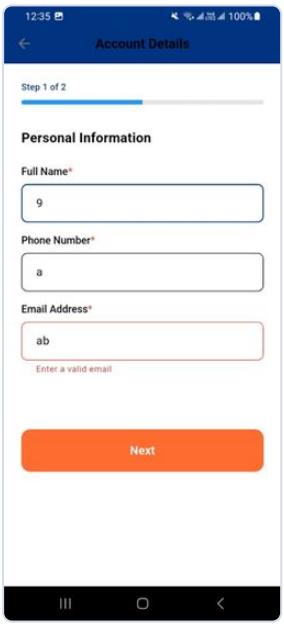

ACTUAL

Only the email field is ever flagged. With email "a@" the form moves on to Step 2 even though name and phone are invalid. Same behaviour under Business.

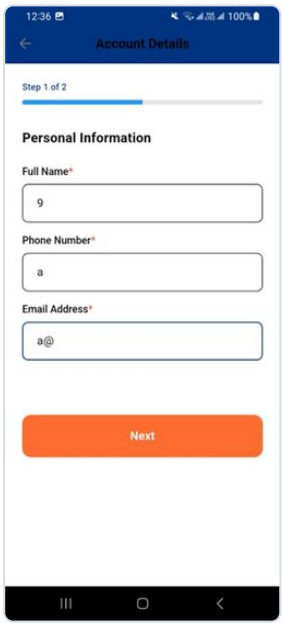

Retest 7 Oct: Still open (7 Oct): Full Name "9" and Phone "a" not flagged; only email is checked.

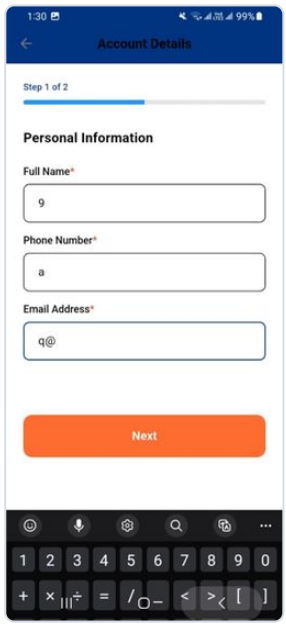

Tester screenshot

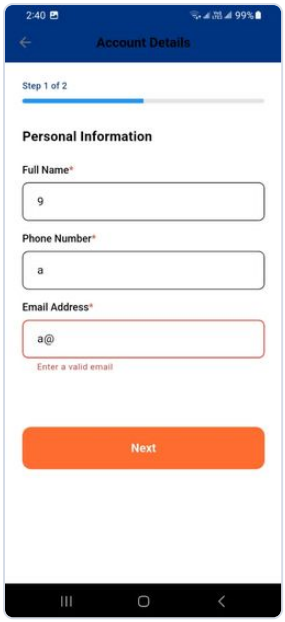

Tester screenshot

Tester screenshot

IMG-20261007-WA0726

BRT-005

Weak passwords are accepted

High P1 Retest: still open

Area	Registration	Role	Content Producer - Individual
Reported	2026-10-01	Status	Open
Preconditions	On Account Details - Step 2 of 2.		

STEPS TO REPRODUCE

1. Complete Step 1.
2. On Step 2 enter Password and Confirm Password: aaabbb
3. Tap Create Account.

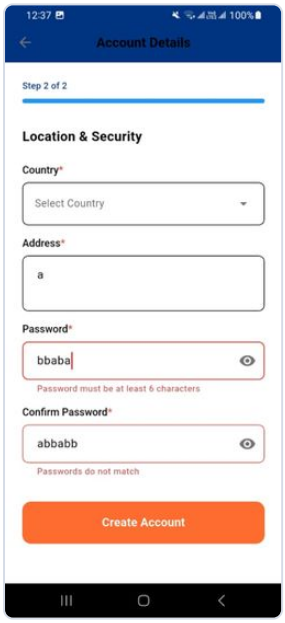

EXPECTED

Password must meet a minimum length and include letters, numbers and special characters. Rules shown under the field.

ACTUAL

"aaabbb" is accepted with no strength check.

Retest 7 Oct: Still open (7 Oct): Advertiser form accepted a 1-character password "."; the backend error listed only the email problem.

Tester screenshot

BRT-008

LGA is required for all countries

High P1 Retest: looks fixed

Area	Registration	Role	Content Producer - Individual
Reported	2026-10-01	Status	Open
Preconditions	User is outside Nigeria.		

STEPS TO REPRODUCE

1. Start registration.
2. On Step 2 select a country other than Nigeria.
3. Try to complete the form.

EXPECTED

LGA is only required when Country = Nigeria. For other countries, ask for Post/Zip Code instead.

ACTUAL

LGA is required, so users outside Nigeria cannot create an account.

Notes / root cause: Tester could not create the account.

Retest 7 Oct: Looks fixed (7 Oct): State/LGA are hidden for non-Nigeria countries. Full signup not confirmed because BRT-006 still blocks it.

BRT-009

Fields marked "(Optional)" are actually required

High P1 Retest: still open

Area	Registration	Role	Content Producer - Individual; Content Producer - Business
Reported	2026-10-01	Status	Open
Preconditions	On Content Producer Details screen.		

STEPS TO REPRODUCE

1. Register as Content Producer (Individual or Business).
2. Leave Portfolio Link (Optional) / Website (Optional) empty.
3. Fill all other fields and tap Complete Registration.

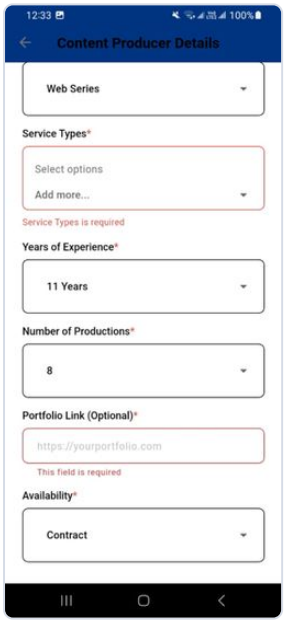

EXPECTED

Optional fields can be left blank and have no required asterisk.

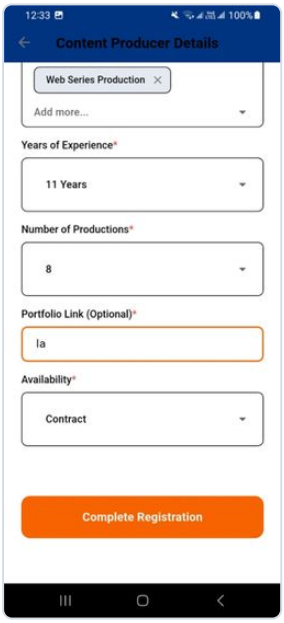

ACTUAL

"Portfolio Link (Optional)" and "Website (Optional)" carry the red required asterisk and block submission when empty.

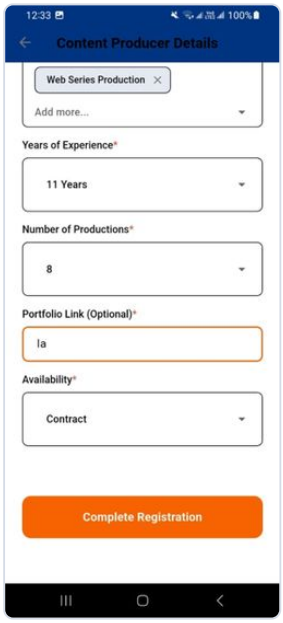

Retest 7 Oct: Still open (7 Oct): Portfolio Link (Optional)* and Website (Optional)* still required.

Tapping Business ID Type greys out the screen

High P1 Not retested

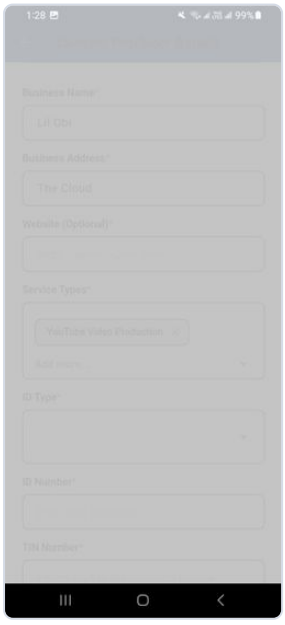

Area	Registration	Role	Content Producer - Business
Reported	2026-10-01	Status	Open
Preconditions	On Content Producer Details (Business).		

STEPS TO REPRODUCE

1. Register as Content Producer - Business.
2. Fill Business Name, Business Address, Service Types.
3. Tap the ID Type field.

EXPECTED
A list of ID types opens.

ACTUAL
The whole form greys out and no picker appears.

Tester screenshot

BRT-015

No bottom navigation bar after Continue as guest

High | P1 | Not retested

Area	Guest mode	Role	Guest (not signed in)
Reported	2026-10-01	Status	Open
Preconditions	Fresh launch, not signed in.		

STEPS TO REPRODUCE

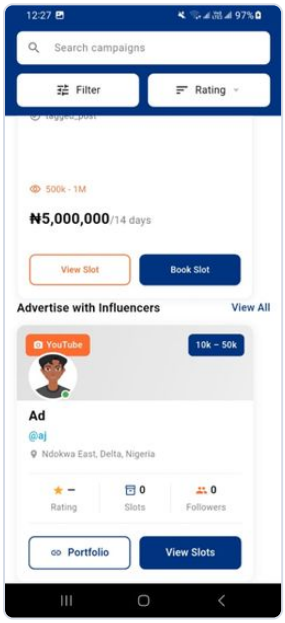

1. Tap Continue as guest.
2. Scroll the Explore screen.
3. Try to navigate to another tab.

EXPECTED

Bottom navigation bar is always visible.

ACTUAL

Bottom bar is missing, so there is no way to leave the screen.

Tester screenshot

BRT-034

Selecting the Designer role shows a full grey screen

High P1 New this round

Area	Signup	Role	Designer
Reported	2026-10-06	Status	Open
Preconditions	On Create account (role picker).		

STEPS TO REPRODUCE

1. Tap Create account.
2. Tap Designer.

EXPECTED

The Designer details form opens.

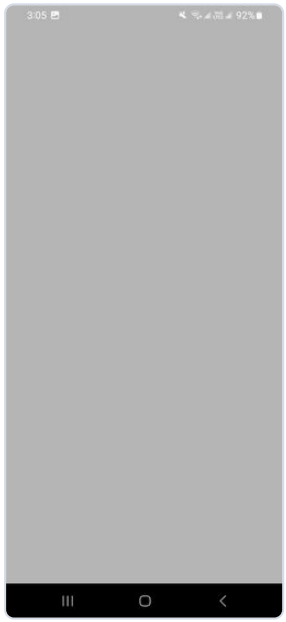

ACTUAL

The whole screen turns grey; the user cannot continue.

Notes / root cause: DESIGNER is also missing from the backend role enum (BRT-031). Test every role card and hide unfinished ones.

IMG-20261006-WA0808

BRT-035

Customer app creates seller-role accounts, then blocks their login

High | P1 | New this round

Area	Authentication	Role	Seller roles (Artist, Content Producer, Influencer...)
Reported	2026-10-07	Status	Open
Preconditions	Customer (Brantro) app.		

STEPS TO REPRODUCE

1. Create account with a seller role (e.g. Content Producer) in the customer app.
2. Log in with that account in the customer app.

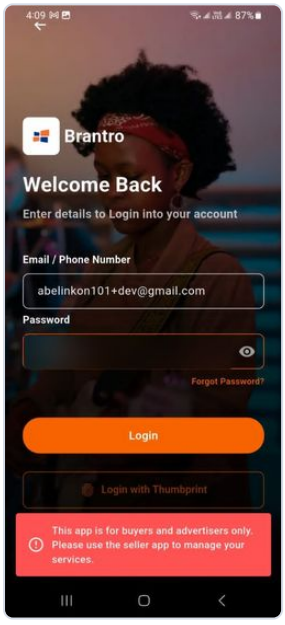

EXPECTED

The customer app only offers buyer/advertiser roles, or sends seller sign-ups to the Business app.

ACTUAL

Login shows: "This app is for buyers and advertisers only. Please use the seller app to manage your services."

Notes / root cause: PM to decide which roles belong to which app. Password in the screenshot has been blurred.

IMG-20261007-WA0840

BRT-042

Grey screen after changing State; FCT sends user back to the role picker

High P1 New this round

Area	Signup	Role	Advertiser
Reported	2026-10-07	Status	Open
Preconditions	On Advertiser Details.		

STEPS TO REPRODUCE

1. Pick a State and a City.
2. Change State to Abia, Bauchi, Bayelsa, Cross River, Ebonyi, Edo, Ekiti or Enugu.
3. Separately, select FCT.

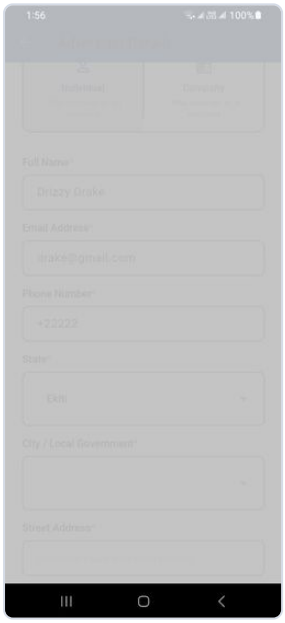

EXPECTED

City resets and the new state's LGAs are listed.

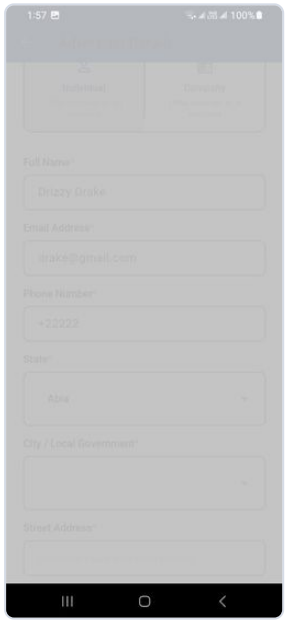

ACTUAL

Grey screen over the form. Selecting FCT returns the user to the Create account role page.

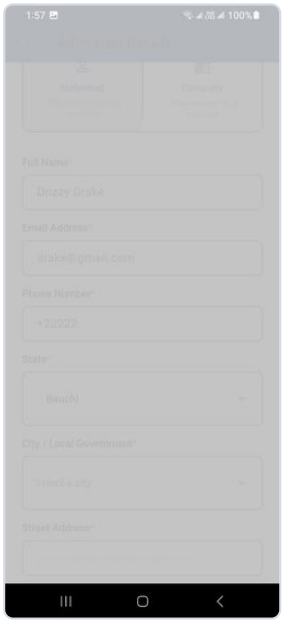

Notes / root cause: Root cause confirmed on device (Business app, 7 Oct): City is stored as a list position, so a shorter new list crashes and FCT crashes on its own. See BRT-033, BRT-045, BRT-046.

IMG-20261007-WA0614

IMG-20261007-WA0619

BRT-043

Advertiser Details has no client-side validation

High P1 New this round

Area	Signup	Role	Advertiser
Reported	2026-10-07	Status	Open
Preconditions	On Advertiser Details.		

STEPS TO REPRODUCE

1. Full Name "11", Email "drake", Phone "qq", City empty, Password ".".
2. Submit.

EXPECTED

Each invalid field is flagged on the form before submitting.

ACTUAL

Only the raw backend banner "[emailAddress must be an email]" appears. Name, phone, empty City and a 1-character password are not flagged.

Notes / root cause: Same as BRT-036 (Business app).

IMG-20261007-WA0630

BRT-003

Error messages are generic or show raw backend text

Medium | P2 | Retest: still open

Area	Signup	Role	All
Reported	2026-09-27	Status	Open
Preconditions	Any signup form.		

STEPS TO REPRODUCE

1. Trigger a signup error (e.g. steps in Bug 1 or Bug 6).
2. Read the error banner.

EXPECTED

A clear, human-readable message naming the field and how to fix it, shown next to that field.

ACTUAL

Messages are either generic ("Signup failed. Please try again.") or raw backend text ("[emailAddress must be an email]").

Retest 7 Oct: Still open (7 Oct): raw "[emailAddress must be an email]" and "[role must be one of ...]" banners still shown.

Tester screenshot

BRT-006

"Address" field is mislabelled and rejected as an invalid email

Medium | P2 | Retest: still open

Area	Registration	Role	Content Producer - Individual; Content Producer - Business
Reported	2026-10-01	Status	Open
Preconditions	On Account Details - Step 2 of 2.		

STEPS TO REPRODUCE

1. Complete Step 1.
2. On Step 2 look at the field labelled "Address".
3. Enter a valid email (e.g. name@gmail.com), or a street address.
4. Tap Create Account.

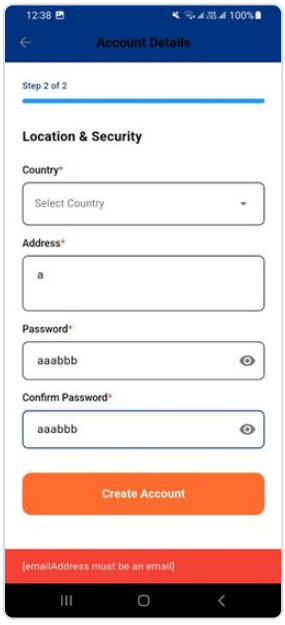

EXPECTED

Field is clearly labelled (Email Address or Street Address), sized to match, and mapped to the correct backend field.

ACTUAL

Label just says "Address" and the large box suggests a home address. Backend replies "[emailAddress must be an email]" even when a valid email is entered.

Retest 7 Oct: Still open (7 Oct): Step 2 (Country Wallis and Futuna, Address "1") still returns "[emailAddress must be an email]".

BRT-007

Email ownership/existence is not verified

Medium | P2 | Not retested

Area	Registration	Role	Content Producer - Individual
Reported	2026-10-01	Status	Open
Preconditions	On registration flow.		

STEPS TO REPRODUCE

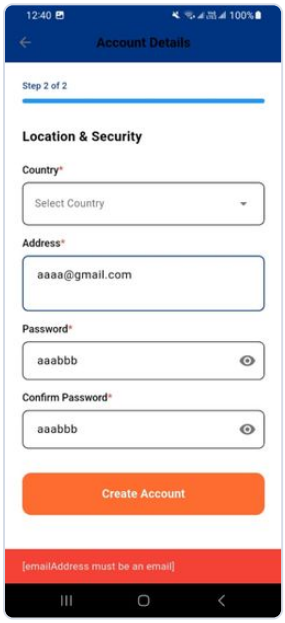

1. Register with any well-formed email address, including one you don't own.
2. Complete registration.

EXPECTED

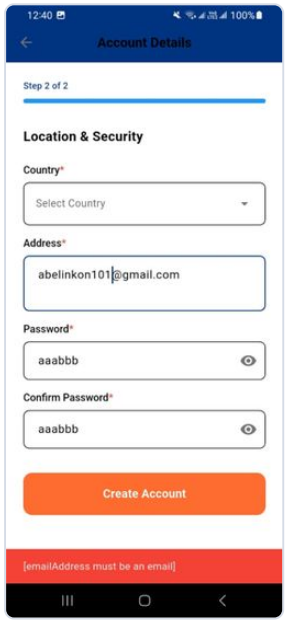

A verification code or link is sent and the account is activated only after the email is confirmed.

ACTUAL

The app cannot tell whether the email really exists. Also tested with a real existing account.

Tester screenshot

Tester screenshot

BRT-010

"Add more" under Service Types appears compulsory

Medium | P2 | Not retested

Area	Registration	Role	Content Producer - Individual
Reported	2026-10-01	Status	Open
Preconditions	On Content Producer Details screen.		

STEPS TO REPRODUCE

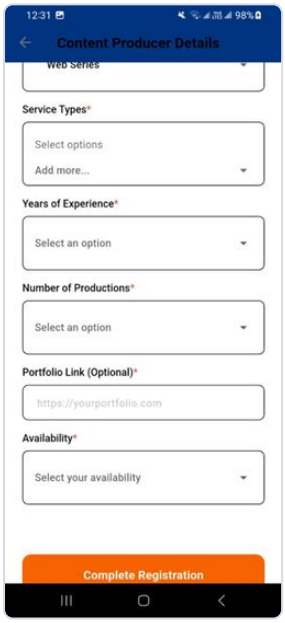

1. Register as Content Producer.
2. Select one Service Type.
3. Try to continue without using "Add more...".

EXPECTED

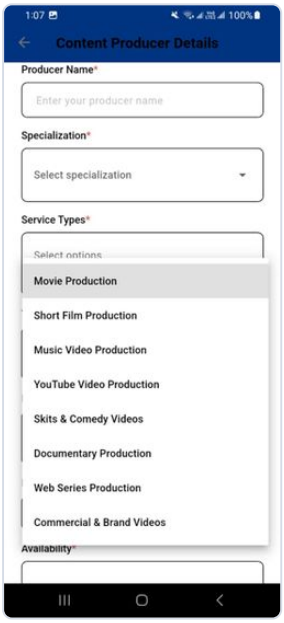

One service type is enough; "Add more" is optional.

ACTUAL

"Add more..." behaves as if more than one selection is required.

Tester screenshot

Tester screenshot

BRT-014

Restricted services don't show the sign-in prompt to guests

Medium | P2 | Not retested

Area	Guest mode	Role	Guest (not signed in)
Reported	2026-10-01	Status	Open
Preconditions	Opened app with Continue as guest.		

STEPS TO REPRODUCE

1. Tap Continue as guest.
2. Open a registered-user service (e.g. Design Templates, Vetting).

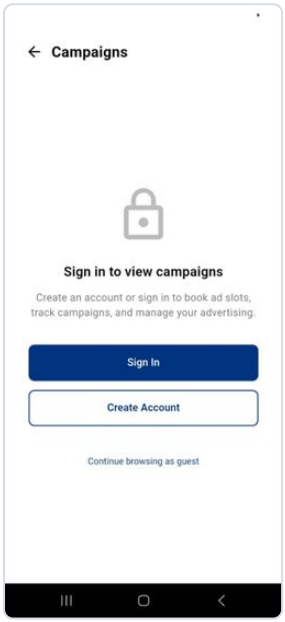

EXPECTED

The same sign-in/register prompt shown for Campaigns.

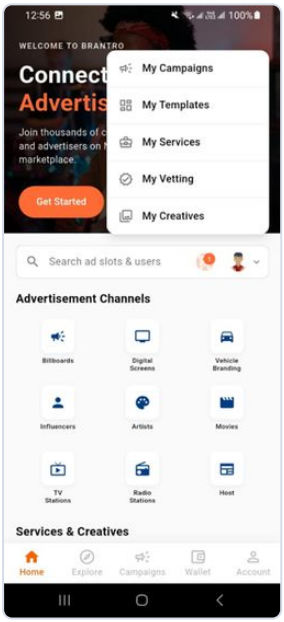

ACTUAL

Errors such as "Error Loading Vettings - Something went wrong" appear instead.

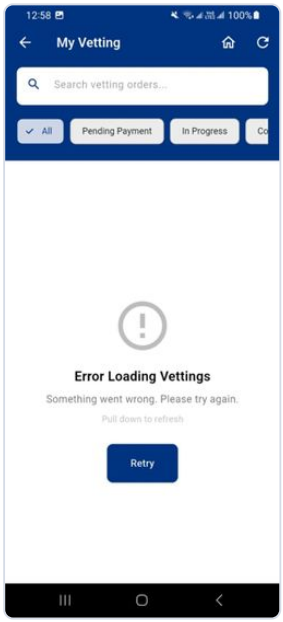

Notes / root cause: 1st screenshot = the expected prompt (from Campaigns).

Tester screenshot

Tester screenshot

Tester screenshot

BRT-020

Portfolio button opens a broken website

Medium | P2 | Not retested

Area	Explorer	Role	All
Reported	2026-10-01	Status	Open
Preconditions	On Explore - Advertise with Influencers.		

STEPS TO REPRODUCE

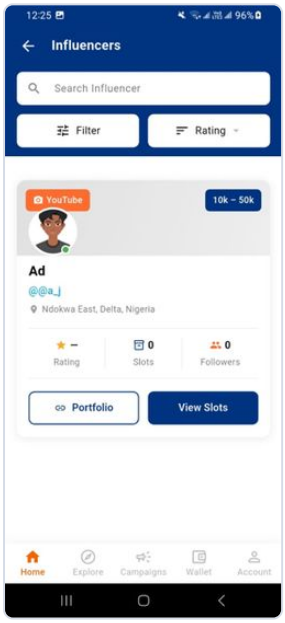

1. Open Explore.
2. Scroll to Advertise with Influencers.
3. Tap Portfolio on a card.

EXPECTED

Opens the creator's portfolio URL, or the button is hidden when no portfolio exists.

ACTUAL

Opens a faulty/broken website.

Tester screenshot

BRT-040

Artist Specialization list doesn't change with Primary Profession

Medium | P2 | New this round

Area	Signup	Role	Artist
Reported	2026-10-07	Status	Open
Preconditions	On Artist Details.		

STEPS TO REPRODUCE

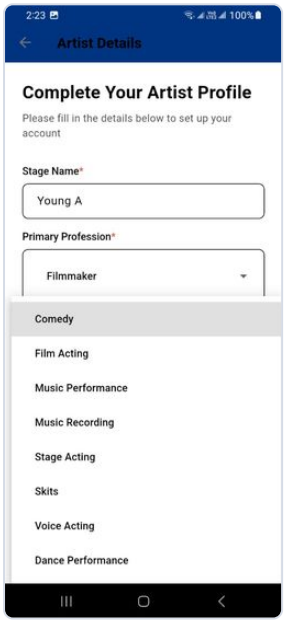

1. Primary Profession = Filmmaker; open Specialization.
2. Change to Dancer; open Specialization.

EXPECTED

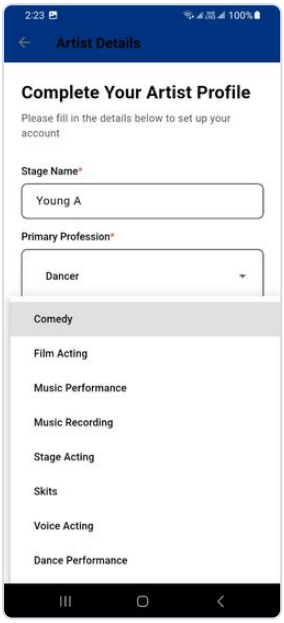

Specialization options are filtered by profession and reset when it changes.

ACTUAL

Both show the same list (Comedy, Film Acting, Music Performance, Skits, Voice Acting...).

IMG-20261007-WA0638

IMG-20261007-WA0639

BRT-041

ID Type step continues with no input

Medium | P2 | New this round

Area	Registration	Role	Content Producer - Business
Reported	2026-09-29	Status	Open
Preconditions	On Content Producer Details (Business).		

STEPS TO REPRODUCE

1. Leave ID Type empty.
2. Fill the other fields and continue.

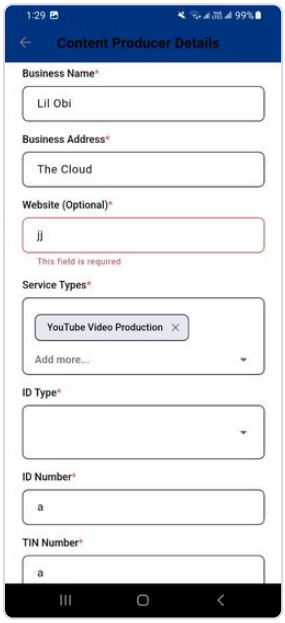

EXPECTED

Blocked with a required-field message.

ACTUAL

The form proceeds with no ID Type.

Notes / root cause: Reported in chat 29 Sep 13:30 but missed from the first log. Related: BRT-012.

IMG-20260929-WA0720

BRT-044

URLs not validated: Website and Portfolio (and ID, TIN) accept any text

Medium | P2 | New this round

Area	Registration	Role	Content Producer - Business
Reported	2026-10-07	Status	Open
Preconditions	On Content Producer Details (Business).		

STEPS TO REPRODUCE

1. ID Number "i", TIN "i", Portfolio "u", Website "8".
2. Continue.

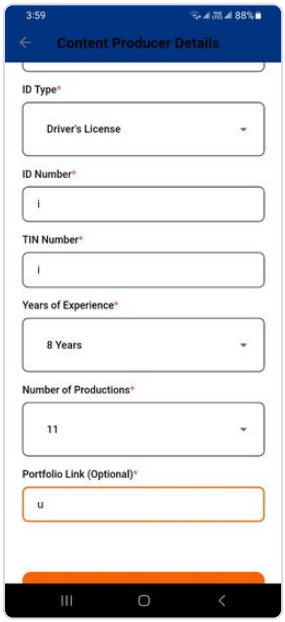

EXPECTED

ID and TIN validated by format; Website/Portfolio must be valid URLs.

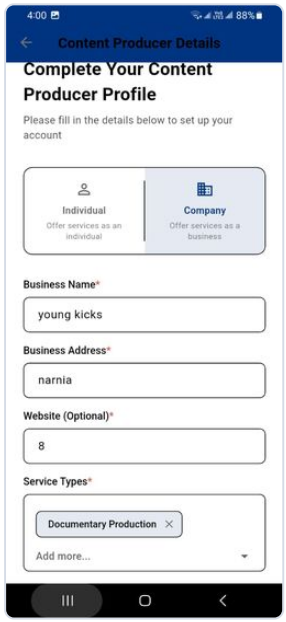

ACTUAL

All values are accepted.

Notes / root cause: Tester: "The verification/type checking issue".

IMG-20261007-WA0816

IMG-20261007-WA0817

BRT-011

Unselected Country is not highlighted on submit

Low | P3 | Not retested

Area	Registration	Role	Content Producer - Individual
Reported	2026-10-01	Status	Open
Preconditions	On Account Details - Step 2 of 2.		

STEPS TO REPRODUCE

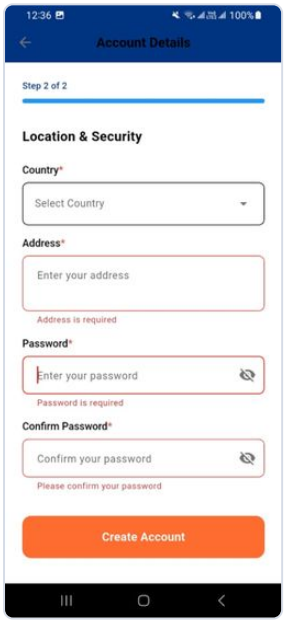

1. Complete Step 1.
2. On Step 2 leave Country unselected.
3. Tap Create Account.

EXPECTED

Country field is highlighted in red with a message, like the email field.

ACTUAL

Submission is blocked but the Country field is not highlighted.

Tester screenshot

BRT-016

Back from an advertisement channel resets scroll position

Low | P3 | Not retested

Area	Navigation	Role	All
Reported	2026-10-01	Status	Open
Preconditions	On Explore screen.		

STEPS TO REPRODUCE

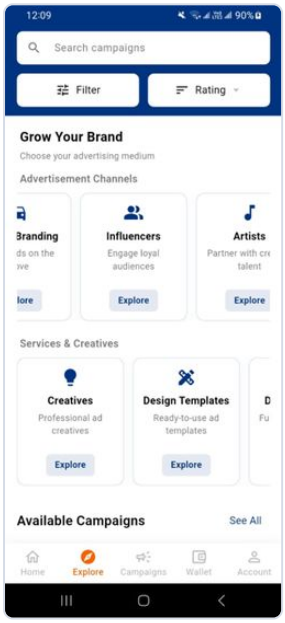

1. Scroll down Explore to an advertisement channel (e.g. Influencer).
2. Open it.
3. Tap Back.

EXPECTED

Returns to the same scroll position.

ACTUAL

List jumps back to the top of the page.

Tester screenshot

BRT-017

Guest filters are not kept for the category

Low | P3 | Not retested

Area	Guest mode	Role	Guest (not signed in)
Reported	2026-10-01	Status	Open
Preconditions	Browsing as guest.		

STEPS TO REPRODUCE

1. Continue as guest and open a category.
2. Apply filters.
3. Leave the category and come back.

EXPECTED

Chosen filters stay for that category during the session.

ACTUAL

Filters are cleared.

BRT-018

Explore sorts by Rating by default

Low | P3 | Not retested

Area	Explorer	Role	All
Reported	2026-10-01	Status	Open
Preconditions	On Explore screen.		

STEPS TO REPRODUCE

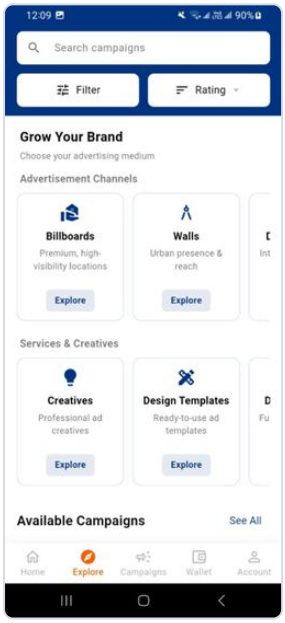

1. Open Explore.
2. Check the sort dropdown.

EXPECTED

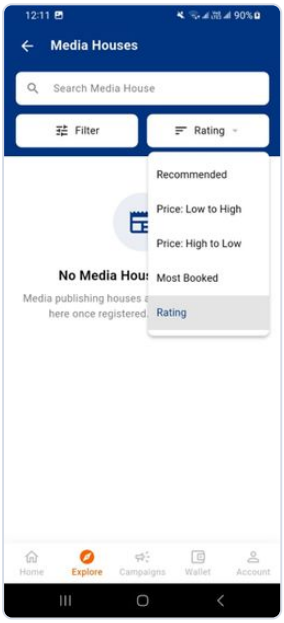

Default sort is Recommended.

ACTUAL

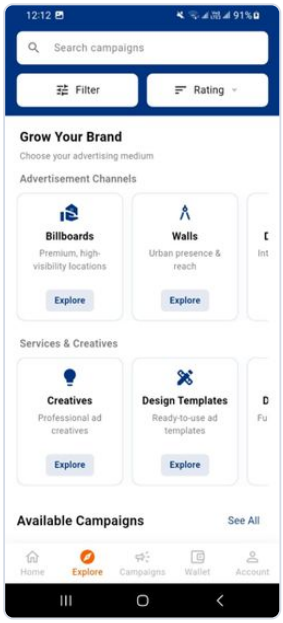

Default sort is Rating, while most listings have no ratings yet.

Tester screenshot

Tester screenshot

Tester screenshot

BRT-019

Use a 5-star rating display

Suggestion | P4 | Not retested

Area	Explorer	Role	All
Reported	2026-10-01	Status	Open
Preconditions	On Explore listing cards.		

STEPS TO REPRODUCE

1. Open Explore.
2. Look at the Rating field on a listing card.

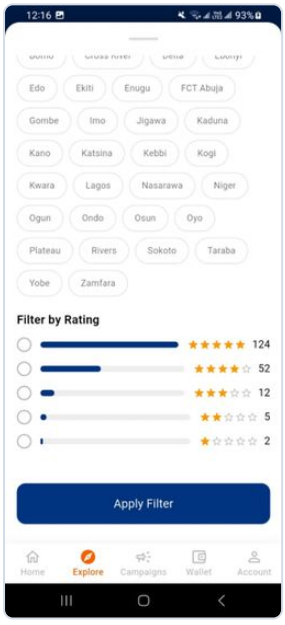

EXPECTED

Standard 5-star rating display.

ACTUAL

A single star with a dash.

Notes / root cause: Enhancement, not a defect.

Tester screenshot
